Subject: RE: DTE 01-33 Waiver Request Filing

To the Pooling Administrator,

Verizon requested five thousands-blocks in order to serve its customer, but Neustar denied Verizon's request because Verizon had not met the months-to-exhaust requirement. Verizon requested a waiver from the Department.

Based on confidential and proprietary information submitted to the Department as part of its waiver request, Verizon has demonstrated that it cannot serve its customer from its existing inventory, and that this inability does not result from Verizon having used its numbering resources in an imprudent manner.

Therefore, the Department directs Neustar to assign five thousands-blocks in the 1000, 2000, 4000, 5000, and 6000 number ranges to Verizon in the Marlboro rate center.

Please do not hesitate to contact me if you have any questions.
